

**March 29<sup>th</sup> - April 1<sup>st</sup> 2012**

## **Protection of the Amazonia**

The Global Greens agree to promote the preservation of the Amazonia:

- stopping initiatives that involve exploitation, deforestation and construction in the Amazonia;
- urging the governments of Bolivia, Brazil, Colombia, Ecuador and Peru to stop projects that involve the Amazonia jungle, and
- demanding that these governments adopt effective internal policies to preserve this important ecosystem.
