5 Article 5 – Structure and Bodies

5.1 Global Greens Co-ordination (GGC)

- (a)** The GGC is the Governing Council of the Global Greens and functions as the General Assembly of the Association.

- (b) It is the primary decision-making body between meetings of the Congress. Its detailed operating role and responsibilities are laid down in the Rule Book. Inter alia, it is responsible for adopting, amending and administering the Rule Book containing detailed rules for the functioning, management and operations of the Global Greens.
- (c) The GGC is convened by the Executive Committee and meets at least once a year. Meetings may be in person or held over the internet, and/or by means of electronic or telephonic conference calls. Meetings may be formally spread over a period of time to allow for decisions to be taken and recorded online.
- (d) The GGC consists of representatives nominated by each of the regional Federations specified in Article 5.3. Each Federation may nominate three representatives and may also nominate three people to act as substitutes for their representatives in circumstances set out in the Rule Book. Each Federation shall designate a “lead” representative and a substitute “lead” representative from within its representatives.
- (e) In addition to the full and substitute representatives of the Federations, the GGC may co-opt people with specific expertise or knowledge and appoint advisors and observers as it considers necessary and as provided in the Rule Book. Such co-opted persons do not vote in the GGC or have the right to block consensus.
- (f) Full and substitute representatives of the GGC may serve up to two terms of three years beginning from the date of incorporation. In exceptional individual circumstances, and only with the express approval of the GGC and the relevant Federation, a representative may serve a further three year term.
- (g) Full and substitute representatives may be replaced by decision of their respective Federation.
- (h) The GGC makes decisions by consensus. Decisions made at meetings of the GGC shall be recorded and circulated to its members. Detailed decision-making procedures are set out in the Rule Book.
- (i) The quorum required for decisions by the GGC is a minimum of two representatives from each of the Federations specified in Article 5.3 including their lead representatives or duly designated substitute lead representatives.
- (j) In the absence of a quorum at a GGC meeting, a provisional decision may be made by consensus amongst those present and circulated for decision within a designated time period not less than 48 hours.
- (k) Meetings of the GGC require a minimum of 120 hours’ notice. In an emergency a meeting may be convened with 48 hours’ notice.
- (l) In the exceptional circumstances set out in Articles 5.3.5 and Article 7 a decision may be taken by formal majority vote.

- (m) The GGC shall appoint a Convenor or Co-Convenors from amongst the following: its members and up to two other persons of different genders nominated by each Federation. The Convenor is responsible for coordinating the work of the Executive, the Secretariat and the GGC. The Convenor does not vote in the Executive or in the GGC but may call for a decision to be made or reconsidered and shall facilitate consensus building.
- (n) The Convenor is neutral and does not act as a representative of any Federation. Once appointed, the respective Federation may appoint or elect a further GGC member as a replacement.

5.2 Congress

- (a) The Global Greens Congress operates as an enhanced General Assembly and is the highest decision-making body of the Global Greens. It must be convened by the GGC at least once each five years save for exceptional circumstances.

- (d) The Federations as such do not vote at Congresses and their interests are routinely represented there by their own constituent member parties. However

the lead representative of any Federation may table a formal objection to any proposed resolution, decision or action arising at a Congress. In such a case the matter shall be deferred for reconsideration by the GGC, whose decision shall be final.

- (e) If, by a three-quarters majority vote, the GGC determines that any Federation is not functioning democratically and/or responsibly, or is failing to uphold the Global Greens Charter, the GGC shall by the same majority determine the appropriate steps to be taken, including mediation as necessary, to enable a properly functioning Federation to be re-established. In the interim, the GGC may by the same majority take action to ensure that the benefits of Global Greens membership, including participation in forthcoming Congresses, are preserved for Members of that Federation. Before a final decision is made the affected Federation may appeal to the Conciliation Panel.
- (f) If any Member is alleged to have failed to uphold the Global Greens Charter, the relevant Federation shall investigate the allegation and, if proven, shall take action to prevent the Global Greens being brought into disrepute.
- (g) Detailed provisions regulating the matters concerned in articles 5.3.d, 5.3.e and 5.3.f are contained in the Rule Book.

The Congress must consider this proposal and may decide to dissolve the Global Greens. If it is impractical for Congress to be convened in a timely manner, the GGC in consultation with the Federations must consider this proposal and may decide to dissolve the Global Greens. A decision by the Congress or the GGC to dissolve the Global Greens must be made by consensus except as provided for in Article 7.4.

All such decisions have to be duly filed at the clerk's office of the competent Commercial Court and published in the Annexes to the Moniteur Belge in line with the applicable legislation.
- 7.7 In the event of the final liquidation of the Global Greens, after the settlement of contractual obligations to staff and other obligations, the remaining financial and other assets shall be distributed equally amongst the existing Federations or, if that is not possible, to the The Green Forum to be used for the benefit of like-minded organisations.
