Re: New Global Greens Co-Conveners Announcement

Dear Global Greens members,

We hope this finds you well in your corner of our beautiful planet.

We are delighted to announce that we have been successfully elected as the new Global Greens Co-Conveners. This is an honoured position and one we are both relishing. The world needs a truly international Green political movement, a Global Green movement, more than ever. We bring our complimentary experiences from politics and elections, civil society engagement, business, organisation, network building and development from our respective regions and federations, with the aim of building alliances, growing the network, and ensuring the Global Greens work has a far-reaching and lasting impact that helps build a better world.

We stand together and will work together to create solidarity and strength across our network. We will listen, connect and build trust to ensure that the excellent work going on in each federation is enhanced, and we find common ground for actions collectively and globally. We will ensure that all voices are heard, and that the Global Greens remain representative of the diversity that created it and that gives its strength and value. We will grow the movement, reaching out to like-minded organisations, so that we can build alliances to achieve our goals, in line with the Global Greens Charter.

Being Green isn't a political choice, it's the voice of hope and belief in a better and fairer world for everyone. Finally we want to thank each and every one of you for committing your time, energy, expertise, hope and belief in our movement whether you are members, ambassadors, activists or politicians, or a mixture of all those things, everything you do makes a difference.

We are excited to work with you, in Green unity and Green solidarity.

Best regards,

Bodil Valero & Jose Miguel Quintanilla
